

IC 82-5560
29 October 1982

MEMORANDUM FOR: Chief, Administrative Staff, ICS

ATTENTION:

FROM: Robert E. Eisenhaur
Deputy Executive Secretary, NFIB

STAT

SUBJECT: Request for Logistical Support

1. I expect the WANG station recently installed in the NFIB vault to become operational in early November -- initial operational link with CIA headquarters. I request procurement of the following materials needed to operate and maintain use of the WANG system:

Cat No.

279-5204-6	WANG multi-strike ribbon (cartridge type-type)	10 boxes @ \$30.00 each
719-6020	Plastic print wheel (prestige elite 12 pitch)	12 wheels @ \$8.33 each
177-0063-1	8-inch diskettes (SSD) white label--box of 10	2 boxes @ \$75.00 each

2. In addition, I request that appropriate measures be taken immediately -- GSA survey or whatever -- to assure a proper and comfortable room temperature in the vault (5N10). For several days, room temperature has remained constant at 86° F, posing serious implications for health and equipment maintenance.

Robert E. Eisenhaur
